

Project Guidelines

Week of Feb 17: Project Outline is due at the beginning of class

- The outline is worth 4 points out of 20 total points for the project
- It should be at least one page, typed, double spaced, etc.
- Include at least 3 sources you're thinking of using, an actual outline of what you plan on including in the project (what specific topics will you be discussing), and a description of how you will be doing your project (poster, presentation, interpretive dance, etc.)

Week of April 13: Project Presentations

- 10 min if the presentation is your project, 5 min if not
- Attendance is required for everyone.

Week of April 20: Last day of labs, Observatory Report Due

- The Observatory Report or “Exploration of a Research-Grade Telescope” can be found online (10 points)
- Suggested Observatories: HLCO, Georgia Tech, Fernbank
- Observatory information can be found online at <http://www.astro.gsu.edu/lab/>

GSU Observatory Open House Dates:

- For HLCO open houses, arrive at or after sunset: [Check Link](#), set to Atlanta
- ***On-Campus Observing***: Need to sign up with me in advance to attend
- Thursday, February 27th at 7:30pm, Monday, March 2nd at 7:30pm, Tuesday, March 31st at 8:30pm, Monday, April 6th at 9:00pm
- There is a limited number of students which we can allow on the roof for on-campus observing. Because of this, you need to email me and let know if you would like to attend one of these dates. Information about exactly when and where to meet as well as any cancellations will be provided by the TA in charge of the given date.
